STATE COLLEGE

YEARBOOK DEDICATION
2002

The dedication of the Salem State College Clipper Yearbook is usually a tribute to an individual who has been in someway more than just a professor or administrator. Usually the recipient has a history of giving of themselves to students and the college community in general.

This year Program Council would like to honor two departments whose staff epitomize these traditional values: the Public Safety Department and the Facilities Department. This dedication is made with sincere appreciation to these individuals.

Throughout the years, with a twenty-four hour a day, seven days a week commitment, these two departments have provided a safe, secure, clean, and aesthetically pleasing campus. Many students may not have had the opportunity to meet these individuals, but those of us who have, are grateful to them. We may take for granted the Emergency Phones, and the security they offer, and the rescues with the "battery buddy," or the "Slim Jim." We may take for granted that the sidewalks are shoveled and sanded and the parking lots are swept. Do we notice that the custodial staff keep buildings clean and vacuumed? Yes we do. We can depend on the Public Safety officers to look out for us, and we can depend on Facilities to assure that the campus environment is conducive to learning.

A Message From the Editor

To the class of 2002,

This was the second year that I have edited the Clipper. I have been to many events, programs, and athletic games during this time. By photographing these activities, I have attempted to capture your senior year. Many photos within the following pages were taken by me, but I want to thank those students who also submitted pictures. Because of budget cuts, this was the first yearbook to be published in paperback. While I was disappointed at first, the decision made it possible to add more pages and cover photos - new this year. Consequently, there are more photos this year. I have also placed fewer photos on each page so they are larger. I figured, as years go by it is the pictures that will be special as you reflect on your memories of Salem State. Enjoy!

One other thing, please think environmentally. I urge you to think of your education at Salem State as a catalyst for environmental improvements. You can't take it with you, so what you leave behind is really what is most important. Good luck with all you do.
